Mr. Kap,
To be clear, I notified her that she has reporting obligations and would be willing to provide her with proof. She misunderstood; I do not wish to meet with her. I'll be enjoying my holiday with family as is my tradition- you will remember since you sent me my license suspension by email the Friday night before Christmas and then wondered why I didn't know about the suspension. So no, I prefer to not meet Rolli. She knows what she has to do.

Since you no longer have jurisdiction over my license and you are not my personal attorney of record, I ask you to not contact me for any matter since I believe it is witness intimidation and tortious interference. I am a witness and so is Dr. Rolli. My letter to her reminded her of her reporting obligations.

Thank you,
Nanette

Subject: Dr. Martha Rolli

Good morning,

Dr. Martha Rolli informed me that you sent her another letter, this time asking to meet with her during a visit to Madison. Dr. Rolli has asked that I reply on her behalf and requests that you no longer contact her. As you know, Dr. Rolli was the Department's expert witness in your licensing case, 14 MED 581, in which she did not prepare a report or otherwise provide expert testimony. Once that case concluded, so did Dr. Rolli's involvement and she is therefore no longer obligated or willing to communicate with you about the matter, or any of the other issues that you have raised to her.
